

**MOVIMENTO
EUROPEO
DI AZIONE
NONVIOLENTA**

35 organizations have come together for a specific project of peace and humanitarian assistance in Ukraine, which is called **MEAN - European Movement for Nonviolent Action.**

Our main idea is to preserve the transformative power of active non-violence within the framework of the conflict scenario, not only theoretically, but also concretely, through

THE MASSIVE MOBILIZATION OF THOUSAND OF EUROPEAN CIVILIANS IN UKRAINE

We are convinced that armed resistance can stop or even defeat aggression, but it does not change the situation that provoked the outbreak of aggression, while **non-violent mass actions at the European level** can create an environment conducive to recovery on new conditions and exclude aggression and the use of war as a means of resolving conflicts between States.

We will organize **dozens of buses and motorhomes from different European countries that will bring participants to the war-torn territory** to appeal to political leaders to cease fire and start negotiations aimed at peaceful coexistence among the peoples of the planet.

Many of the participants, together with representatives of European and Ukrainian public and civil organizations, **will be ready to help people**, especially the **most vulnerable categories and those suffering from mental disorders** who are in Ukraine today, **who would like to run away in Europe from conflict**, but do not have sufficient funds and opportunities.

Negotiations and meetings are currently underway with Ukrainian public organizations, as well as associations and institutions from various European countries, in order to determine the start date and stages of this initiative, which, in any case, will begin

only when **5000 PARTICIPANTS** are reached.
